

PRICE INCREASE 2024

In 2023 we agreed to cap the increase to 5% and "defer" the balance of 4.3% (the figure was 9.3%) to future years and then when inflation fell below 5% we will continue at 5% until the deficit to inflation has been recovered. November 2023 inflation was 5.5% so for 2024, the increase will be capped to 5%, and a deferred increase of a further 0.5% carried forward, making a total deferred future increase above inflation of 4.8%.

Fees are rounded to the nearest pound, except for those on boat length, and so some small fees will see no increase for a few years until the accumulated increase rounds it up rather than down.

Thus the fees for 2024 will be
