

Queens Cup Result - Sat 4 Jun 2022

It was a very windy Race! Four signed on, three started, two ran aground, leaving Walrus who completed the course in testing conditions and takes the Queens Cup, on her Majesty's Jubilee too - well done Rodney and Crew!

One boat got into trouble and was blown onto Steart Island and in particular Jayne Campbell, one of our Gigs, went above and beyond, recovering a MOB and towing the sail boat to safety, an amazing effort! Another sail boat suffered gearbox failure and was rescued by Storm. Lastly, on the previous day a speed boat with engine failure was rescued by a sail boat. Although these were unfortunate incidents we all need to learn from, it was great to see all sections of our club pulling together to help one another in difficult conditions.
